

Interconnect Management

Easing Management of Carrier Relationships and Contracts

Managing inter-carrier relationships and contracts isn't easy. Is it time for you to initiate or re-open negotiations? Are you confident of a beneficial outcome? Can you readily backup your numbers? Without access to meaningful data to support negotiations, you risk costly errors. And, without tight controls to ensure contract compliance, you limit your success. Connectiv Solutions easily resolves your challenges with our comprehensive, industry proven Interconnect Management Services focused on Carrier Management, Telco Billing and Network Audits.

Contract Management

Connectiv Solutions arms Carrier Management with the knowledge and ability to reduce unnecessary network expenses and increase revenues.

Jurisdictional Validation

Our Jurisdictional Validation provides you with a real understanding of your traffic patterns and includes local number portability (LNP), Jurisdictional Informational Parameter (JIP) and even cell site location for wireless providers to accurately determine critical contract ratios.

RFx Support

We take the stress out of adding a new carrier with proven processes developed for any kind of carrier. We forecast your costs based on your network calling patterns while providing insightful negotiating strategies to ensure the greatest possible return on your investment.

BENEFITS

- Maximize negotiation leverage
- Streamline complex audits
- Quantify Phantom Traffic and Traffic Pumping
- Increase success in usage disputes
- Ensure lowest total cost of ownership (TCO)
- Understand how your rates compare against your peers
- Gain network wide visibility

Benchmark Analysis

With our Domestic and International studies, we compare and analyze your rates to the industry – across billions of long distance records – and pinpoint areas to improve margins and increase profits.

On-line Contract Repository

Streamline research and data gathering time with quick and easy access to all your inter-carrier agreements (ICAs).

“Leveraging Connectiv Solutions’ Traffic Study reports we were able to improve our local usage from 85% to 98% – resulting in significant savings.”

Network Audits

Connectiv Solutions simplifies complex audits and helps to position you to win usage disputes.

Contract-to-Billed Rate Audit

Compare your contractual rates to invoices at any level, quickly determine over and under billing and leverage the supporting data to win any dispute.

Switch-to-Bill Volume Audit

Audit third-party invoices to ensure they match what your network is sending out. Group your results by provider, originating switch or account number.

Jurisdictional Audit

Excluding LNP from your audits may result in overpaying millions in monthly charges. We validate the terminating OCN, LATA and Jurisdiction, incorporate local number portability and ensure accurate code holder and location information.

Why Connectiv Solutions?

Connectiv Solutions has been helping the telecommunications industry contain costs and improve revenues for 10 years. We’ve helped some of the largest Service Providers in North America understand their variable usage cost and eliminate \$100s of millions in expenses. Our solutions and services analyze nearly 10 billion CDRs a month supporting the goals of Carrier Management, Engineering, Finance, Strategy and IT at Service Providers.
